

AMENDMENTS TO THE SPECIFICATION

Kindly replace the paragraph beginning at page 19, line 15, with the following amended paragraph.

The hybridoma cell line producing the “11E10” antibody (Anti-Stx2) was deposited on Aug. 1, 1990, at the American Type Culture Collection, Rockville, Md. under Accession No. CRL ~~1987~~ 1907, and can be obtained from the ATCC, or, as here, from Dr. Alison O’Brien (for details of hybridoma preparation, see Perera, L. P. et al., *J. Clinical Microbiol.*, 26:2127-2131 (1988)). A vial of the cell line was thawed, washed with serum free medium and then resuspended in IMDM (Mediatech) complete media supplemented with 10% FBS (Irvine).
